Synopsis

Synopsis

The workshop was organized by MAG LAB in collaboration with AIU.

This new editions "Creative process, contemporary Art" done in June 2011 ,focused its interest to show the Students different creative processes in a multidisciplinary artistic context, based on the New "making of" culture.

Students were able to explore different ways of representing ideas through art concepts applied by an intensive search for spatial conditions in order to configure architectural spaces.

Different spatial possibilities through a given site presented the students with an opportunity to generate several prototypes using realistic, raw & smart materials.

This workshop was an exploration of different ways of representing ideas through art concepts applied by an intensive search for spatial Conditions in order to configure architectural spaces.

Aim of this workshop was to give students insights on different ways to generate and represent ideas combining exercises based on art Examples and nature processes as paradigms.

The goal was achieved through theoretical classes, personal research and Practical works.
